

Office Memorandum • UNITED STATES GOVERNMENT

TO : [REDACTED] A

DATE: 16 August 1951

FROM : [REDACTED]

SUBJECT: [REDACTED] A

In my opinion [REDACTED] would be excellent as a panel member or consultant to be used to visit various projects for Bluebird, but I doubt if he would be useful at the Team level - his talents and abilities would be wasted and he would probably become impatient to say the least.

However, he might be suitable to visit [REDACTED] project and others like it as our OSI representative and should be able to determine whether or not there is anything of value in these projects for us. H-B/3

However, I believe OSI can best determine his possible use if he comes aboard.

A [REDACTED]

note: [REDACTED]

A

[REDACTED] agreed with

[REDACTED] that G

[REDACTED] would be released outright to that office and that

he would not be considered any

further either in OSI or

in connection with this Project.

MAILED FROM [REDACTED]

Assistant Deputy (Inspection & Security)
Attention: [REDACTED] A
Executive Assistant, OSI
[REDACTED] A

A/B, 5, 63/2
2 August 1951

G
1. Attached are the papers on [REDACTED]. As noted in my memorandum for file included with the papers, [REDACTED] has been interviewed by OSI and by [REDACTED] with a view to employment in one of the two shops. After [REDACTED]'s PHS has been received, OSI and [REDACTED] will get together to decide where he might be of most value to the Agency.

A
2. I suggested to [REDACTED] that [REDACTED] might be of value in connection with team activities. Although we both agree he is rather high powered for such duty, I personally question whether you will be able to find a competent medical officer other than one of this type.

3. You may wish to consider [REDACTED] in connection with the Project and take the matter up further when his PHS arrives. It is requested that you return the attached papers to me when you have finished with them.
